# PLAGIARISM TUTORIAL

<https://zsr.wfu.edu/tutorials/plagiarism/q/2/>

*"The turn of the century saw Joyce celebrate his eighteenth birthday and the pace of his life quicken. On 20 January 1900 he delivered his long-pondered talk on 'Drama and Life' to the college's Literary and Historical Society. It was to be an important event in Joyce's artistic evolution. It confirmed his reputation for eccentric brilliance, and provided him with a springboard to a new literary future."*

Bowker, Gordon. *James Joyce: A Biography*. Weidenfeld & Nicolson, 2011.

## Student Writing Sample

*Joyce's talk on 'Drama and Life' confirmed his reputation for eccentric brilliance, and provided him with a springboard to a new literary future (Bowker 71).*

Does this writing sample use the source correctly?

Yes

✓ No

✓ You're right!

Who has mad plagiarism avoidance skills? You do. Although it might appear that the student is giving proper credit to the author in the parenthetical citation, the student uses a direct quotation without setting it off with quotation marks. This seems harmless, but it could actually lead the reader to believe that the words used are the student's own paraphrase of Bowker's idea, not Bowker's actual words. Without quotation marks, this is plagiarism.

## How do I do a citation search?

[Home](#) » [Help and Support](#) » How do I do a citation search?

### What is a citation search?

Citation searching is a way of finding relevant research in a field or subject by looking at what an article has referenced and who has since used that article as a reference. For example, you might find a journal article published in 2001. You can do a

The screenshot displays the Hostos Community College Library website. At the top, the Hostos Community College logo is visible. Below it, a breadcrumb trail reads: Hostos Community College Library / LibGuides / ZTC/OER Textbooks / EDU 111 - Teaching Math & Science to Young Children - Textbook / Chapter 1: Early Learning. The main title of the page is 'EDU 111 - Teaching Math & Science to Young Children - Textbook'. A search bar is located on the right side of the page. The left sidebar contains a table of contents with the following chapters: Chapter 1: Early Learning (highlighted), Chapter 2: Math & Science Connections, Chapter 3: Theory & Teacher Effectiveness, Chapter 4: Special Needs, Chapter 5: Standards & Assessment, Chapter 6: Lesson Planning, Chapter 7: Centers & Environment, Chapter 8: Teaching Science Content, Chapter 9: Teaching Math Content, and Chapter 10: Hands-on Learning. The main content area is titled 'Chapter 1: Early Learning' and contains the following sections: 1.1: What We Learn Before We're Born (highlighted), 1.2 Early Childhood Mathematics: Promoting Good Beginnings, and 1.3 The Surprisingly Logical Minds of Babies. The '1.1: What We Learn Before We're Born' section includes a pop quiz: 'Pop quiz: When does learning begin?' with the answer: 'Before we are born. Science writer Annie Murphy Paul talks through new research that shows how much we learn in the womb — from the lilt of our native language to our soon-to-be-favorite foods.' Below the text is a video player showing a woman speaking.
