

Figure 1

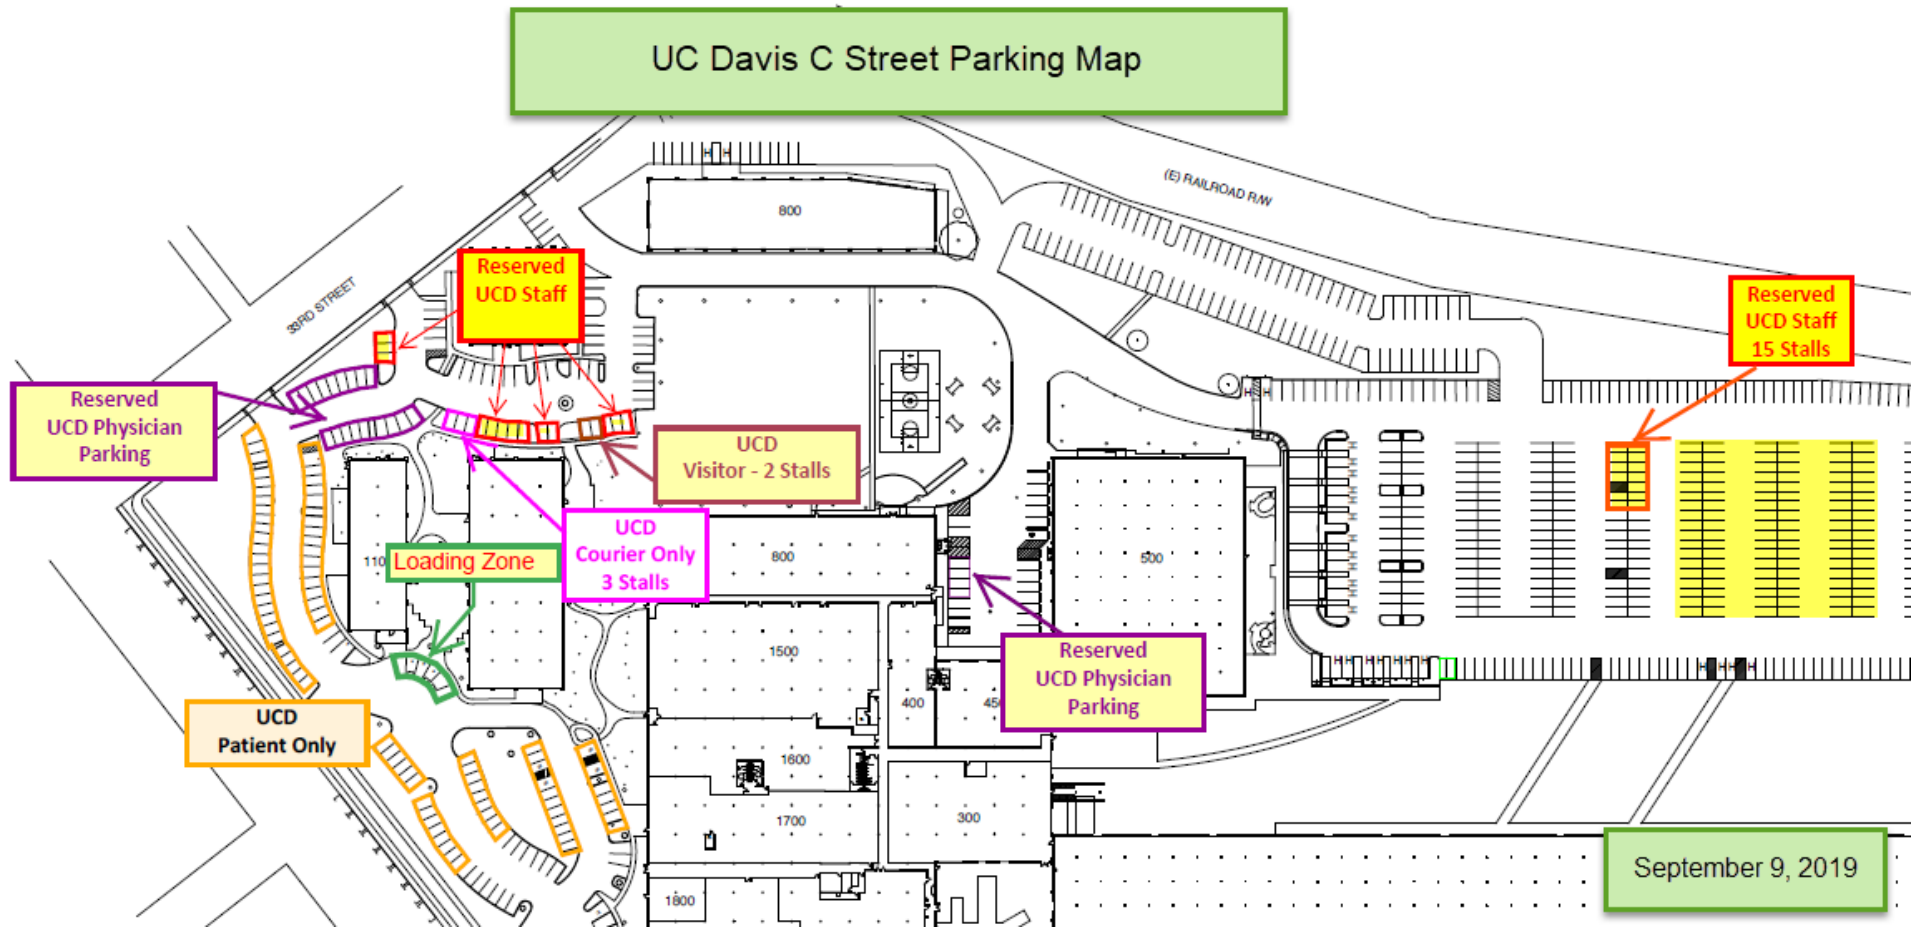

Figure 1. UC Davis C Street Parking Map

The UC Davis C Street parking map will be used to show current state of allocated parking for patients, employees and physicians. This visual will be used to identify the various spots located throughout the C Street business complex. It is a high-level view of all the different marked UCD parking locations. It will be used in the proposal, in the overview section, as a way for the audience to have a visual of where each group of people can/should park.

Figure 2

The image shows a sample parking pass for UCD Davis Health. It has a blue border and contains the following text:

**UCDAVIS
HEALTH**

Physician Parking Pass

SPINE CENTER

ATTENDING PHYSICIAN

Parking pass needs to be displayed on dashboard, easily visible, when parking in UCD Physician Parking at C Street. Questions? Contact: 916-734-1313

Pass Number: _____

Figure 2. Sample UCD C Street Physician Parking Pass

An issue regarding C Street parking is employees, residents and fellows parking in physician parking spots. Part of my proposal will include ways to ensure physician parking on C Street is only used by our attending physicians. Figure 2 will be used when I discuss the physician parking issue and will support my proposal for all attending physicians, who would like to park in a physician assigned parking spot, be issued and use their assigned parking pass. This will help management identify cars parked in unauthorized parking spots.

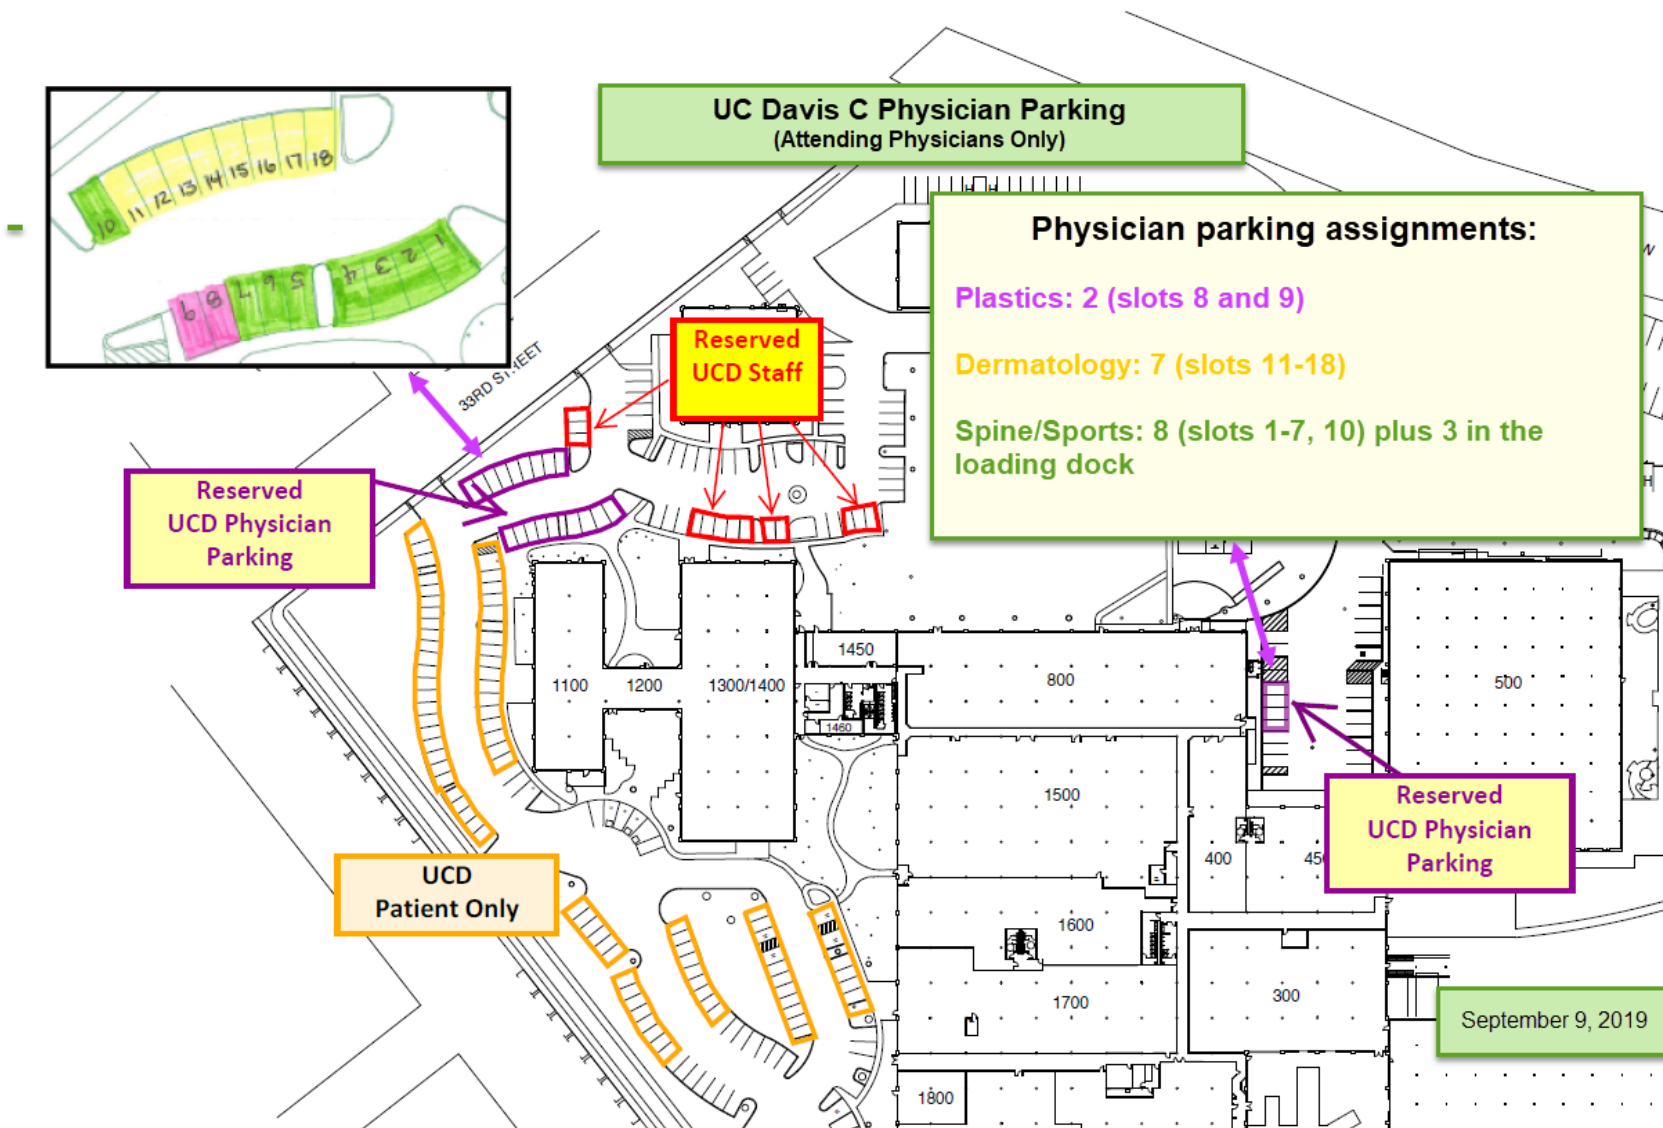

Figure 3. Proposed Allocation of Parking Spaces

Figure 3 is similar to Figure 1; however, Figure 3 focuses on physician parking spots. The visual shows more information on the allocation of physician spots by department and their location. This figure will also be used when discussing the issue with physician parking spots and will support the suggestion of implementing parking passes for attending physicians to be used when parking in an assigned UCD physician parking spot.

F4a. Example of a Physician marked spot

F4b. Example of a UCD Staff marked spot

Figure 4 contains two photos of marked parking spots at the C Street location. The pictures show examples of both a physician marked spot as well as a staff marked spot. When referencing the different types of marked parking spots in my proposal, this visual will be used so that audience members who are not familiar with the C Street location will be able to visualize what the marked parking spots look like.
