

# California State University Equally Effective Alternate Access Plan (EEAAP)

All CSU campuses are required to apply the CSU Accessible Procurement Framework to [Information and Communication Technology \(ICT\)](#) products and services. When medium or high-impact systems, software, or processes do not fully meet accessibility requirements, this document is completed by the campus EEAAP Committee to affirm the institutional response in providing alternative means of access.

## Accessibility Statement

The accessibility statement should be posted conspicuously wherever the end user will interact with the platform or software. [CSU ATI Product Accessibility Statement Recommendations](#).

## Accommodation Plan

If EEAAP workarounds are inadequate to provide equal access for a specific individual's situation, an accommodation plan is necessary.

- If the accommodation is for a student:

Contact the campus Services to Students with Disabilities Office. Describe the software and why the student cannot access it (what is the issue).

- If the accommodation is for staff or faculty, the general public or other non-affiliated person (visitors, vendors, speakers):

Contact the campus Human Resources Department. Describe the software and why the faculty or staff cannot access it (what is the issue).

## Administrative Approvals

*By signing this request, you affirm that the plan has been reviewed and is an acceptable solution that meets CSU ATI compliance requirements and all disability related legislation (listed in the reference section of this document).*
